Sandra feels it is an isolated incident. Port-a-potty has been fixed where a panel had been removed. Water testing results to be posted at beaches. The analysis performed on water samples collected on 7/8/04 is well within range. Sandra to also start monitoring Mothers beach now that it is open to members. Sandra also noted that some of the association members are talking about starting a block/beach watch. President Koropatkin indicated to Sandra that if that was what they wanted to do, that they were welcome to go ahead and start one up. The more help Sandra has monitoring the beach, the better off the community around that area will feel.

**Newsletter:** Dennis Flaherty noted that there are few tools to communicate to our association members and the newsletter was an important one. Monies should be allotted to help fund it along with the advertisement sold. Next issue scheduled for end of August, early September.

President Koropatkin noted that letters were sent out to association members on Amidon Dr about paving, unfortunately Hipski has been unable to do the paving yet because of rain and vacations. New stop signs have been posted on Lakeview Dr. There will be a 3-way stop on Lakeview Dr./Pine Hill and a 4-way stop on Lakeview Dr./Circle Dr. The stop signs are in response to association members concerns at the June 27<sup>th</sup>, Annual Meeting about speeding. The Town of Ashford worked well with the Association, and very quickly installing the stop signs. Within 24 hours of the signs being placed, one association member complained, and five other members have expressed great appreciation and stated, about time something is done about the speeding.

**New Business:** Association members feel the need to change the hours of the beach and the island use. It was suggested that the hours be set up insync with the Daylight savings time.
