

# Lake Chaffee Improvement Association

## Community Opportunities

### Upcoming Meetings:

- July 17<sup>th</sup>, 2pm: Election of the LCIA Board
- August 21<sup>st</sup>, 2pm: Budget meeting. Discussion will continue on the dam/valve repairs.
- Board meetings occur at 6:30pm on the second Wednesday of every month.

Your participation is crucial to our improvement. Please join us to share your perspective.

### Poker Run:

- Sunday, July 17<sup>th</sup>, 11am-2pm
- Entry fee: \$25. Association members and guests ages 21+

Start at the Hall and boat, run, walk, bike, or drive your way to five different houses or docks around the lake. There you will draw a card. Once you have all five cards, you will head back to the Hall to receive your “wild” card. The participant with the best hand will split the proceeds with the LCIA. The more people enter, the bigger the prize. Bring your friends!

### Logo Contest:

We're in search of a logo or image to represent our beloved lake. Bring your entry, in any artistic medium, to the July 17<sup>th</sup> meeting. The winner will receive a \$25 credit towards upcoming merchandise featuring their design.

### Upcoming Repairs to the Hall:

The Chaffee Hall is getting a facelift. Our insurance company is paying to repair the damage caused by recent winter weather, which includes much of the interior. However, we are still trying to raise additional funds to replace the exterior siding. Once funds have been raised, we will be seeking volunteers to help with installation. Please contact a board member if you can help with this project.

Additionally, a horseshoe pit had been built and a community garden was planted. Please take advantage of the great community we live in by enjoying and maintaining these resources.

### Haunted House:

We're planning to have a haunted house in October. Please start thinking about what costumes, decorations, or skills you can contribute. We'll be sending out more details in September.

### Stay in Touch:

To know what's happening with your lake community, visit [www.LakeChaffee.org](http://www.LakeChaffee.org) often. We've added a blog feature so you can contribute directly to the content. We're also in the process of adding an environmental awareness page so we can better protect our most valuable shared resource, Lake Chaffee.
